Here tofore, the American people have been jealous of the fitness and qualifi cations of their candidates for the hief Magi tracy o' this g eat and growing country. In Washington, Jefferson, Madison, Jackson and their long line of accomplished successors we find with few exceptions, men em ment for their culture, their lega abilities, and experience as statesmen It was the predominance of these essential prerequisites that recommend can people for that high and honora the Republic the qual fications that adorned and gave influence and power to the first occupants of the White House, are thrust aside, and though to be criminal. We are now asked to support General Grant wholly up on the ground that he has no policy -no principles-no capacity-no experience, and because he is unwilling to communicate his ideas of states manship, if he has any, to the public He is to be a sort of "pig in the poke," John Tyler has challenged Walter and if the electors of the United State Brown to row a match for one or two are not willing to take him by guess thousand dollars a side, at Troy, on he cannot be their candidate for Pres ident. for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.

Thin hair is thickened, falling hair checked, and haldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands strophical and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Their sugar coaling preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in my quantity.

They operate by their powerful influence on the internal viscent to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and office organs of the body, re-toring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper, on the box, for the following complaints, which these Pills rapidly cure:

For Dyspepsia or Endignestion, Listlessness, Languer and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Elver Complaint and its various symptoms, Elvieus of Freen Sickness, Bilious Colic and Elvieus fewers, they should be taken of reach action or remove the obstructions which cause it.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists.
